TAKE CONTROL OVER YOUR WINES
Equipped with a remote control function, control, from the Vinotag ® application, the parameters of your wine cellar (temperature, lighting), are adjustable remotely and at any time, from your smartphone.

SAFE AGEING
Stay informed wherever you are about the proper functioning of your wine cellar and the safety of your bottles.
The Millésime cellars are equipped with a **triple glazed low-e glass door** providing ultra-efficient insulation, as well as a lock.

PREMIUM EQUIPMENT
The Millésime wine cellars are equipped with **integrated LED side lighting on both sides**, which highlights each bottle in an elegant and modern way. With this lighting, you can admire your collection.
The cellars in the range are also equipped with sliding **shelves made of rot-proof solid sapele wood**, allowing bottles to be stored upside down or visible on the labels.

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.
This equipment is designed to be used in an ambient temperature between 10-38°C.
This appliance is intended to be used exclusively for the storage of wine.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 6 shelves. Adding shelves reduce considerably the total capacity.
**Thanks to the Vinotag® application, benefit from a digital register of your wine cellar and be alerted of the peak dates of your wines. In partnership with Vivino, scan your bottle to access its pre-filled wine sheet.
