

SOLIS Eureka Mignon Manuale

Type 1663

Powerful, quiet and compact - the electric coffee grinder from Italy for the budding home barista. The SOLIS Eureka Mignon impresses with a compact design, a large bean hopper and infinitely variable grind settings.

Infinitely variable grinder

Grind your coffee beans steplessly and micrometrically with the steel hardened disc grinder.

Universal holder

With its universal holder, this coffee grinder is ideally suited for portafilters of various sizes.

Spacious container

The spacious bean container for 300 grams of beans is easy to fill.

On-demand grinding

Dispenses ground beans to the portafilter so you can enjoy the full coffee aroma.

Easy to use

Press the filter against the button and the coffee flows from the spout into the filter.

Anti-Clump & Electrostaticity

The ACE System prevents lumps from forming in the coffee grounds and ensures that the coffee gradually falls out of the spout.

Features

- + Flavour retaining bean hopper
- + High-quality 50 mm grinding discs made of hardened stainless steel
- + Quiet motor
- + 1350 revolutions per minute
- + BPA-free plastic parts
