

Solis Grind & Infuse Perfetta

Type 1019

Fully equipped espresso machine with silent built-in grinder, professional 360-degree steam & hot water wand, low-pressure pre-infusion and adaptive PID.

Solis

Silent built-in grinder

Silent and belt-driven ZERO STATIC™ grinder with 25 settings, micro timer and memory function for precise dosing.

Steam & hot water wand

Professional 360-degree steam & hot water wand creates barista-quality microfoam with a sweet, balanced taste.

Stability & control with PID

Adaptive PID provides multiple temperature control to fully develop the aromas of your coffee.

2.6-litre water tank

Easily removable 2.6-litre water tank including BRITA INTENZA water filter to improve the water quality and coffee taste.

Low-pressure pre-infusion

The soft pre-infusion gently moistens ground coffee under low pressure for a balanced extraction at high pressure.

Digital micro timer

Multifunctional 3-digit display indicating grinding and brewing time to the tenth of a second as well as support messages.

Features

- + Integrated manometer allows for full control of the extraction pressure.
- + Storage compartment to store accessories safely and neatly.
- + Detects and warns when cleaning is due and increases the life span with automatic rinse cycles.
- + Three automatic energy-saving modes and shut-off settings
- + Max. pump pressure: 16 bar
- + Ø 54 mm portafilter
- + Incl. single-wall filters for 1 and 2 cups, cleaning tool, stainless steel tamper and milk jug (350 ml), BRITA INTENZA water filter and water hardness test strip.
